

Allergy Alert

August 12, 2010

Dear Parents,

This letter is to inform you that a student in your child's school has a severe peanut/nut allergy. Strict avoidance of peanut/nut products is the only way to prevent a life threatening allergic reaction. We are asking your assistance in providing the student with a safe learning environment; please do not send peanuts, peanut products, or tree nuts of any kind to school.

If exposed to peanuts/nuts the student may develop a life-threatening allergic reaction that requires emergency medical treatment. Extreme reactions can lead to shock and death.

When students eat lunch in the cafeteria, there will be an allergen free table for cafeteria tray lunches and any allergen free sack lunches. If your child has eaten peanuts or nuts prior to coming to school, please be sure your child brushes his/her teeth and washes his/her hands prior to entering the school.

We appreciate your support of these procedures.

Sincerely,

Jania Peace, RN
